PROFESSIONAL SUMMARY

Having 3 years of Experience on Network Operations that includes designing, deploying, troubleshooting and maintaining of networks in LAN, WAN environment.

- Hands of experience on configuration of Router and Switches.
- Hands-on experience in configuration and troubleshooting of routers and switches such as Cisco ISR 4331, Cisco 1941, Cisco ASR 1000 series routers, Cisco Catalyst 3850, 2960, 9200, 9300 series switches, Juniper EX4300 switches, and Palo Alto PA-220 firewall..
- Tracked the health status of devices daily and documented the results Good level of knowledge in dynamic routing protocols such as OSPF, BGP, static routing, default routing.
- VLAN, Inter-VLAN Routing VTP, STP, EtherChannel Implementing default route configurations for each ISP.
- Able to communicate technical information in easy and understandable way. Recognized for relationship building with team member and client.

TECHNICAL SKILLS

Technical Summary:

- Knowledge on OSI reference model and TCP/IP reference model
- LAN, WAN, IPv4 addressing, IPv4 Subnetting. Ethernet header, IPv4 header, TCP header.
- Ping, Traceroute, DNS, Basic knowledge on VPN, IPsec and Tacacs.
- ARP, ICMP, UDP, TCP, SSH, Telnet.
- Etherchannel, VRRP, Port Security, CDP, LLDP.

Routing Technologies:

- Static Routing, Dynamic routing.
- Routing Protocols such as OSPF, BGP.
- DHCP

Switching Technologies:

- STP, RSTP, VLAN, VTP, STP features.

PROFESIONAL EXPERIENCE:

ORGANIZATION: Optum Global Solutions Private Limited(2022-Aug to 2025 -Aug)

DESIGNATION: Network Analyst

Roles And Responsibilities:

- Troubleshooting the routing protocols such as OSPF and BGP.
- Primary Incident management Troubleshoot and resolve all network related incidents.
- Will raise the ticket with product vendors and coordinate to resolve the issues.
- Will create an ISP ticket such as AT&T, Lumen, Orange, Airtel etc., and coordinate with them to resolve the issue and will prepare RCA and submit to respective team.
- To configure and troubleshooting the protocols such OSPF and static routes.
- To Trouble hardware related issues and raise RMA if hardware issue identified and create a ticket with Cisco and Aruba TAC team and resolves the issue accordingly.
- Execution of iOS Upgrades, Security patches and bug fixes.
- Monitoring and managing the routing protocols OSPF and BGP.
- Provisioning and an end-to-end troubleshooting of Cisco and Aruba Access Points.
- Scheduling the Work Windows to the site services teams to trouble shoot the issues on POE switches, AP related issues and device replacements.
- Monitoring the device health status every day and documented the information,
- To configure and troubleshoot the and MX240 devices.
- Configuring the default routes for respective ISP's.
- If we found any hardware issue, we will create a ticket with Juniper TAC team and resolves the issue accordingly and Collecting RSI and Var/logs to analyze issue.

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
